

Sheet 2 • Where reflow looks worst

The widest table in the corpus — 7 columns, from support-audit.md. Reflow squeezes hardest here. If the wrapped version is unreadable, the rule needs a column-count condition and O1 is unsafe at any floor.

Reflowed — full-size text, columns share the width.

ID	Error	Freq estimate	Tier	Resolves itself?	Path	Priority
E01	Watermark surprise	High	Free	Yes — FAQ	In-app tooltip + FAQ	P1
E02	Daily limit reached	Medium	Free	Yes — next day	In-app message with upgrade CTA	P1
E03	Platform category locked	Low	Free	No	In-app lock UI (already present)	P2
E04	File too large	Low	All	No	In-app dropzone validation message	P1
E05	Unsupported format (CR2/ARW/NEF)	Medium	All	No	In-app message with DNG conversion instructions	P0
E06	DNG MIME detection failure	Medium	Unlimited	No	In-app error with specific guidance	P0
E07	Magic bytes mismatch	Very low	All	No	In-app message	P2
E08	Sharp processing failure	Low	All	No	In-app error + Sentry event	P1
E09	Batch allotment exhausted	Low	Unlimited	Yes — 1st of month	In-app message with reset date	P1
E10	DNG allotment exhausted	Low	Unlimited	Yes — 1st of month	In-app message with reset date	P1
E11	Partial batch failure	Very low	Unlimited	No	Silent; user discovers in ZIP	P1
E12	Batch timeout (large TIFF)	Low	Unlimited	No	Email template	P0
E13	Presigned URL expired	Low	All	No — re-export required	In-app message explaining expiry	P1

E14	ZIP corrupt	Very low	All	No	Email template + Sentry	P1
E15	Tier not unlocked after payment	Low	Unlimited	Usually — webhook retry	Email template; manual Clerk fix	P1
E16	Access after cancel confusion	Low	Unlimited	Yes — period end logic	FAQ answer	P2

7pt — shrunk. TODAY, or close to it — shrunk to the floor.
